

The Enrichment Lab

*The Enrichment Lab begins
when the school day ends!*

Created for parents looking for an outstanding after-school program. The Enrichment Lab provides a safe and innovative environment for unique social and learning experiences and for students to apply their academic learning in a fun and hands on way.

What makes our **after school classes** distinctive:

- Our student-centered, interdisciplinary classes are project-based and provide a real-world approach to learning.
- Students are dynamically grouped by interest or ability for each project and activity.
- Significant attention is directed to social development, including teamwork, personal relationships, and self-awareness.
- We believe that critical thinking is paramount; the days of rote memorization are outdated.

Enrichment Lab offers a variety of excellent class options. (See back for details)
